

As we all continue to navigate COVID-19 together, I want to be sure we continue to be sure that we the Banquet committee is transparent in our communication and remain committed to leading the way Vancouver Wildlife League leads with community care, transparency and making our decisions based off facts and science – relying on the experts to support our actions so we are always doing what’s best for you and our communities. I am going to inform you that we have decided tonight to go ahead and cancel our annual fund raiser/banquet scheduled for May 15th 2020.

For the last few weeks, we have been closely monitoring and preparing for all the possible scenarios and ensuring we have the right plans and resources in place, defined principally by the expert guidance provided by the Centers for Disease Control and Prevention (CDC) and local public health authorities, the State of Washington’s Governor and our President Chuckie, we will cancel our future meetings also and wait until this has blown over and its all safe to come back together as a organization to begin fund raising, doing great projects and events, and have meetings safely.

If you have already registered your spot is safe and secured, but if you’re in a bind please let us know and your refund will be given back to you.

I have spoken with the Vancouver Elks and have applied Force Majeure and were going to leave our deposit with them to still secure a spot for the future and they are fully aware of our good intentions.

Any club member in good standing needing assistance let us know also, we are here for all. Be safe and follow the guidelines set fourth so we can all come together again and continue the great things we do for the State and Community.

Any question please feel free to email me at Vengeance105@comcast.net

Brian “Killer” Cummins
